

We are Klaar voor de Start pre-school  
Our main goal is the best development of your toddler  
It's crucial to their future

Young children have a great capacity for learning  
They learn a lot through play  
We do age-appropriate crafts, read books and sing songs  
We present your child with questions and challenges

Every child is different  
Together with you, we look at what your toddler needs  
This makes the move to primary school much easier

Toddlers are curious  
They want to try out all kinds of things  
We provide the ideal environment for this  
Your child will discover what it can do on its own and what it can learn with a little help

Your child will learn to play with other children and make friends

Klaar voor de Start pre-school pre-school  
It's educational and it's fun

Do you want your child to be well-prepared for primary school?
